To Whom It May Concern:

Wolverine Trailers Inc was not aware that we have created any violations until 12/18/2024 when we were made aware that the proper paperwork was not filed. We were working with another company (Tekton) and they were helping with the removal and the proper disposal of the asbestos per the report from Red Cedar. We were under the impression that all the paperwork needed to be filed through Tekton. Lyle Johnson (owner of Wolverine Trailers Inc) was the one who pulled the demolition permit from the City of Jackson. We were not made aware that there were any issues at that time. The city of Jackson required proof of the asbestos removal before the permit was issued. All documentation was provided to the City of Jackson by Tekton. I have attached a copy of the intent to demolish that was filled out by Wolverine Trailers and by Tekton. Moving forward, I will do my absolute best to ensure that all paperwork is filed properly to all applicable locations. We did not intentionally not follow the proper protocols, and will make sure that the next project will be done properly. If there is any further information that you need from us, please feel free to contact me.

Sincerely,

Lyle Johnson

President
