Dear Mr. Shaffer and Ms. Camilleri:

We are responding to the Violation Notice dated January 29, 2020. The property at 341 Hayes St NW Comstock Park was placed up for sale. Alpine Township informed us that the buildings, due to their age and condition, would have to be removed from the site before selling the land. The wood buildings were not used in a commercial operation in the past. The concrete building was not used commercially for over 50 years but as a hobby and storage building.

I contacted Mr. Cortis to have the buildings demolished and the debris removed from the property. We obtained a burning permit from Alpine Township for some of the wood.

The buildings consisted of a concrete block building and two old wooden buildings. To our knowledge, no hazardous material was present. Just wood and concrete blocks. The wood material was hauled to the dump with some wood burned at the site. The concrete material also was disposed of. We paid for asbestos testing and none was found.

All building materials has been hauled away for proper disposal and the land leveled. No further demolition is necessary either now or in the future. Let us know if you have any questions.

Sincerely,
