Violation Notice!

Feb. 11, to 2020 I met w/ Adam Shaffer / We talked and we both came up with the burning wood that was wet so I told him that I would not burn the wet stuff. This burning of wet stuff will not be done again. We are sorry that the down pressure of the day smoke drifts to the East of our property. We will take that into consideration of burning on those days / Thanks for bring this to our notice to us. Hopefully this will not be a occurrence

Thank? Ted Spruit
