Dear Ms. Sliwa and Mr. Atisha:

**VIOLATION NOTICE**

On April 21, 2021, the Department of Environment, Great Lakes, and Energy (EGLE), Air Quality Division (AQD), conducted a complaint investigation at 11177 E. Eight Mile Road, Warren. The purpose of this inspection was to determine Ali 8 Mile, LLC's and Milania Construction, LLC's compliance with the requirements of Title 40 of the Code of Federal Regulations (CFR), Part 61, National Emission Standards for Hazardous Air Pollutants (NESHAP), Subpart M and Rule 942 of the administrative rules promulgated under Part 55, Air Pollution Control of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended.

According to our investigation, Ali 8 Mile, LLC owns the facility and Milania Construction, LLC performed the renovation activities at the facility. The NESHAP for Asbestos holds both the facility owner and operator equally liable for violations.

During the inspection, EGLE staff observed piles of waste material outside of the building generated from the renovation of the front office area. AQD staff collected compliance samples during the inspection. Category I asbestos-containing materials (floor tiles and tile mastic) were identified in the waste material. A copy of the asbestos survey for the office area was requested but was no provided to the AQD.

Process Description	Section Violated	Comments
Disturbance of building materials during renovation activities at an industrial facility.	40 CFR 61.145(a)	Failure to thoroughly inspect the affected facility or part of the facility where the demolition or renovation operation will occur for the presence of asbestos, including Category I and Category II nonfriable asbestos-containing materials
