Re: Chaldean Community Center - 2075 Walnut Lake Rd, West Bloomfield

Dear Jeremy Howe, Supervisor, Technical Programs Unit,

I am writing to apologize for not sending in the 10-day notice at the proper time. I was so anxious to keep my men working in the winter that the notification slipped my mind. The initial scope of work was interior demolition and that was expanded to remove the roof on the west wing due to instability of steel/joists, which posed a safety concern. Once we realized that we forgot to file, we immediately submitted the proper 10-day notice.

However, before we commenced work, I made sure that there was an asbestos survey and the asbestos as outlined in the survey had been abated. I hope you can see that there was no ill intent on our behalf.

Thank you for understanding.

Sincerely,

Bob Hoffman
