SUBJECT: Self - initiated site inspection for facility permitted in 1993, and now occupied by Baker Hughes. Baker Hughes occupies what was occupied by the former NOWSCO Well Service (1250 Anna) and Former BJ Service (1245 Anna). Permit Void has been requested for NOWSCO.		
RESOLVED COMPLAINTS:		

On Friday December 7, 2018, AQD District Staff arrived at 1245-1250 Anna Drive, Gaylord, Michigan to determine the status of an active permit for that address. The location has historically had two different facility addresses for the different buildings, which are presently owned/operated by Baker Hughes. They report that the location is used as a storage/staging location for staff that cover the state.

AQD Database records identified the following permits associated with the location:

Company	PTI No.	Issued on	Voided on
Former BJ Services 1245 Anna Drive (N3680)	327-97C	6/22/2004	6/26/2018
	327-97B	6/7/2001	6/24/2004
	327-97	6/11/1997	6/7/2001
NOWSCO Well Services 1250 Anna Drive (No SRN)	66-93	5/13/1993	Requested

Discussions with Facility staff indicated that at the time Baker Hughes took ownership/occupancy of the buildings associated with the Facility, that all previously permitted equipment had been removed. A request for voidance of permit 327-97C issued to BJ Services had been voided per the request of District Staff. An electronic request for the voidance of permit 66-93 has been sent to appropriate AQD Staff.
