Formal Response to Violation

This letter is to formally acknowledge violation notice sent to High Life Farms/VB Chesaning, dated May 24, 2022. During our launch and placement of equipment our operation worked closely with the "MRA" group, and to our best knowledge and understanding at the time were within the laid out requirements. In response to the laid out areas requiring a permit, High Life Farms/VB Chesaning has developed the following plan below:

VB Chesaning has contracted with ASTI Environmental to prepare a PTI application for our facility located at 624 Brady Street, Chesaning, Michigan. ASTI will prepare a complete application package that includes: emission calculations, SDS, site plan and process flow schematic. The PTI application will be completed and submitted by July 8, 2022.

It is our intent to work through these open items amicably, and develop a plan that addresses the issues and resolves them for all parties. We appreciate the understanding from "EGLE" during this process.

Sincerely,

Kevin Kyle

General Manager

High Life Farms/VB Chesaning
