Re: Violation Notice U802401214 (Van Buren County)

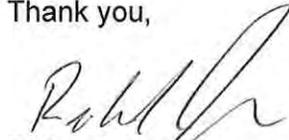

Dear Mariah Scott:

I was aware of improper burning by a person working at the property on February 14, 2024. I immediately called and eventually contacted the person the following week to explain that trash could not be burned and must be properly disposed of in a landfill or trash dumpster.

The violation is not ongoing, I have notified the person of this violation and that burning of prohibited materials like trash and other debris is not allowed.

I will be closely monitoring the ongoing work on the property to ensure that a violation does not reoccur.

Thank you,

Richard Jensen
