Dear Mr. Hart:

### **VIOLATION NOTICE**

On October 13, 2014, the Department of Environmental Quality (DEQ), Air Quality Division (AQD), conducted an inspection of Hart RV and Refridgeration Services located at 3780 North US-131, Manton, Michigan. The purpose of this inspection was to determine Hart RV and Refridgeration Services compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); the administrative rules and to investigate a recent complaint which we received on October 13, 2014, regarding open burning and black smoke attributed to Hart RV and Refridgeration Services operations.

On October 13, 2014, AQD staff observed open burning of refuse and other waste material at Hart RV and Refridgeration Services. This constitutes a violation of Act 451, Rule 310 which prohibits open burning of refuse, garbage, or any other waste material at any business or commercial operation. In order to comply with Rule 310, Hart RV and Refridgeration Services is advised to immediately discontinue any open burning at the facility.

The DEQ encourages the reuse and the recycling of wastes whenever possible. However, any waste that cannot be reused or recycled must be properly disposed of in accordance with Act 451, Part 115, Solid Waste Management, Section 11512(1). Additionally, if Hart RV and Refridgeration Services decides to incinerate their waste, it must be incinerated in a properly designed incinerator. An approved permit must be obtained from the DEQ before commencing installation of any incinerator. An application form is available by request, or at the following website:

If Hart RV and Refridgeration Services believes the above observations or statements are inaccurate or do not constitute violations of the applicable legal requirements cited, please provide appropriate factual information to explain your position.

Thank you for your attention to this matter and for the cooperation that was extended to me during my inspection. If you have any questions regarding the violation or the actions necessary to bring this facility into compliance, please contact me at the number listed below.
