June 25, 2024

We demolished the Kountry Kitchen property at 1920 N. Mitchell St Cadillac, MI on or around June 10<sup>th</sup>, 2024. The owner hired an asbestos survey and abatement completed by Bolle Inc. CJ's was unaware that a 10 day notification was required for EGLE. CJ's had all permits for the demolition on hand and complied with those. We primarily do residential demolition and did not realize that an EGLE notification was necessary for commercial properties. We are aware now and will make sure to take the proper steps regarding any future commercial demolitions.

Thank you,

Jake Johnson
