

To Whom It May Concern:

This is to certify that no occupied residences on the Watersmeet Township public water supply system have had their water service shut-off due to non-payment of their water/sewer bills. Residences that had had their service shut off in the last year have since been reconnected. Our tracking systems have been reviewed and to the best of our knowledge, there are no occupied residences that lack water service for any other reason. If you require additional information, please contact our office at 906-358-4501.

Julie Mathiesen, Clerk  
Watersmeet Township
